- All instances where custody is used as the primary place of safety are scrutinised to examine why custody was used. The majority are circumstances where, following consultation with health partners, the detainee is too violent to be admitted to the place of safety or there is no available capacity at that time.
- The Place of Safety at Bootham Park Hospital closed at the end of September as part of the wider closure of the hospital due to serious safety concerns. As an interim measure, 24-hour Mental Health "Street" Triage has been put in place to cover York, Selby, Tadcaster and Easingwold and a presence in the Force Control Room.
- The closure of Bootham accounted for the use of custody on at least two occasions during September.
